

Dear Valued Customer,

As a valued customer, we think you'd be interested in our latest primary research on the current state of vascular care globally. The research includes over 1,400 patient, physician, and administrator respondents that shaped our vision for improving patient care.

Request your copy of our new research report *Beyond Intervention: Personalized vascular care through technological innovation now*.

Technology bridges the treatment gap felt by patients

- **72%** of patients want more personalized, data-informed care
- **55%** of physicians lament the lack of time they have to spend with patients
- **54%** of physicians and **56%** of administrators agree technology has the greatest opportunity to improve decision making at diagnosis
